J/ψ scaling

$$\sigma^{AB}_{J/\psi} = \sigma^{NN}_{J/\psi}(AB)^{\alpha}$$

with $\alpha = 0.92 \pm 0.015$ from p–p to S–U

J/ψ is a factor 0.74 ± 0.04 below absorption fit

(Schuler rescaling to 200 GeV/c, GRV LO isospin correction)
