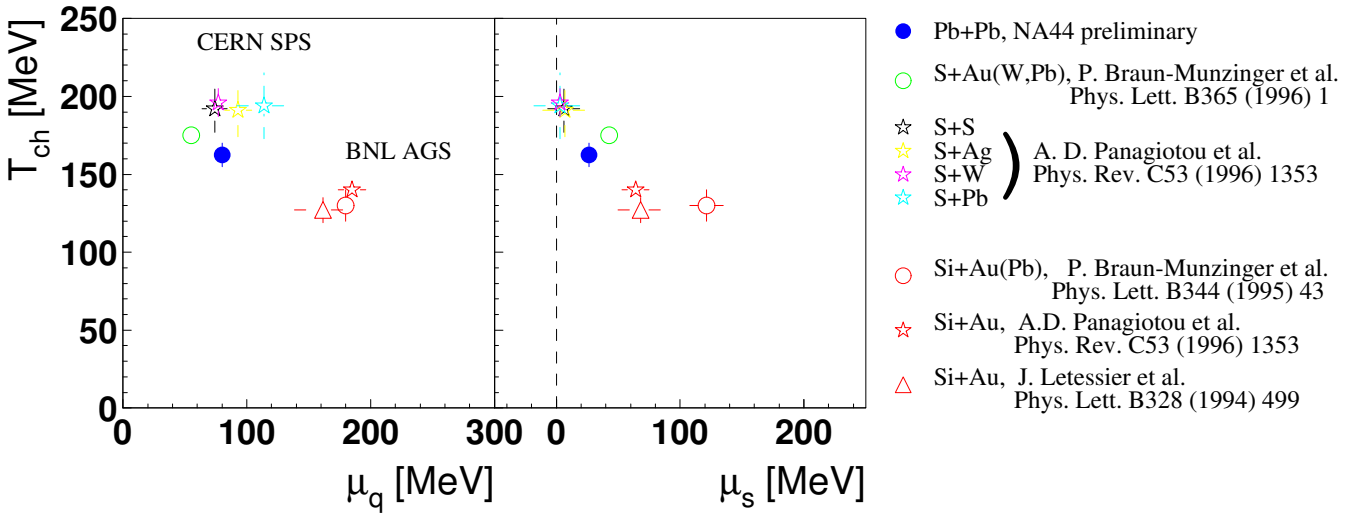
Comparison of T_{ch}, μ_q, μ_s from Pb+Pb with those from other systems



The T_{ch} and μ_q in Pb+Pb are close to the values in S+A

	at SPS energies	at AGS energies
T_{ch} :	155～200MeV	120～140MeV
μ_q :	60～120MeV	160～200MeV
μ_s :	3～ 40MeV	60～120MeV
